1/ The 1942 price and value figures are preliminary.

The season average prices include an allowance for unredeemed loans at average loan value. For corn, the crop marketing season is Aug. 1 to July 31 for Tex., Sept. 1 to Aug. 31 for Fla. and La., and Oct. 1 to Sept. 30 for all other States; for all wheat, June 1 to May 31 for Kans., N.C., S.C., Ga., Tenn., Ala., Ark., Okla., Tex., N.Mex., Ariz., and Calif., and July 1 to June 30 for all other States. Value of "all wheat" differs slightly from sum of wheat by kinds due to rounding of "all Wheat" price.

The values shown are for the marketing season or crop year and should not be confused with calendar year income.

1/ Estimates for each State cover the entire crop, whether commercial or noncommercial, early or late. 2/ The 1942 price and value figures are preliminary. 3/ List of early States excludes California. Average price and total value of all California potatoes shown under surplus late States.

In Florida and Texas, the crop marketing season for potatoes begins about Dec. 1 of the year preceding the year shown. For all other States the marketing season begins during the year shown. For any one State, the marketing period does not exceed 12 months, except for Calif., where it is 14 months. For sweetpotatoes, the crop marketing season is June 1 to May 31 in Ga., Fla. and Ala.; Aug. 1 to July 31 in N.J., Ind., Ill., Iowa, Mo., Ky., and Ark.; and July 1 to June 30 in all other States. The values shown are for the marketing season or crop year and should not be confused with calendar year income.

1/ Season average price to December 1. The 1942 price and value figures are preliminary. The crop marketing season is Aug. 1 to July 31. A small amount of July sales in Texas is included in August at August price. The values shown are for the marketing season or crop year and should not be confused with calendar year income. For cotton lint, the value of unredeemed loan cotton is computed at the season average price.

1/ Estimates for the commercial crop relate to apples produced in the commercial apple areas of each State and include fruit produced for sale to commercial processors as well as for sale for fresh consumption. 2/ For some States in certain years, production includes some quantities unharvested on account of market conditions, scarcity of harvest labor, and/or not utilized due to excessive cullage. Price and value apply only to the harvested portion of the crop. 3/ The 1942 price and value figures are preliminary.

The crop marketing season is June 1 to May 31 for N.J., Ind., Ill., Mo., N.Mex., and all South Atlantic and South Central States; July 1 to June 30 for all other States. The values shown are for the marketing season or crop year and should not be confused with calendar year income.
